KEEPING PROMISES WILSON'S CREED

NEW JERSEY EXECUTIVE SAYS MEN ELECTED TO OFFICE MUST FULFILL PLEDGES.

Addressed Large Audience Friday Afternoon From Court House Steps—Paid Tribute to Bryan—“Greater to Deserve to be President Than to be President.”

Hon. Woodrow Wilson, governor of New Jersey, and a candidate for the Democratic nomination for the presidency of the United States, came to Jacksonville on a special train over the Chicago & Alton Friday afternoon, reaching here at 5:10 o'clock. Governor Wilson was taken immediately from the station to the court house steps where Judge Thompson introduced him to the large waiting audience. Governor Wilson spoke for less than ten minutes and so had little time for his pleasure in seeing so large a number of Jacksonville people and to emphasize in a direct way his claim of being an honest man in politics intent only on doing those things which he and his party might promise to do. He paid a very graceful tribute to Hon. William Jennings Bryan.

William Brown of Chicago, Judge Thompson, Judge Brockhouse, G. E. Doying, Dr. C. H. Raumkamp, Louis Engel, C. A. Bonuff, Robert Tilton and Ralph L. Dunlap were among those who accompanied Governor Wilson from Springfield here and they were joined at Murrayville by C. W. Boston, Sheriff Rogers, Daniel Bohan, John Sheppard, M. F. Dunlap, H. C. Montgomery and others. At the station here Governor Wilson was escorted to F. E. Parrell's car which was waiting at the station and was immediately taken to the place of meeting. A platform had been erected near the top of the steps and as soon as the car had stopped Judge Thompson escorted Governor Wilson there.

Judge Thompson in introducing the speaker said: “Ladies and gentlemen, Honors in public life come permanently only through faithfulness and honesty in public service. By that standard the speaker to day measures high. He is a faithful public servant in New Jersey where he is the chief magistrate. He is a distinguished educator and has the qualities of broad statesmanship and it is a pleasure to introduce him to day.”

Makes No Claim to Beauty.

Governor Wilson spoke briefly and in part as follows: “Ladies and gentlemen, I have used so much of my voice in Illinois already to day that I have not much left now. I can assure you that it is a pleasure for me to greet a spontaneous gathering like this and I am hoping that you coming is not altogether a matter of curiosity; that you are not simply interested in me somewhat because I am a man who came out of a college to run the affairs of a state.

“I do not feel that it would be wise for me to wage this campaign on personal appearance. In this connection I always have in mind a line which my daughter once taught me and which I regret to say seems very applicable to me. It runs this way:

“For beauty I am not a star; There are others, handsomer far; But my face—I don't mind it. For I am behind it.”

“The people in front that I fear,” takes, however, a certain amount of cheek for a politician to go about making speeches and meeting people somewhat with the suggestion: “Here I am, take a look at me and see if you don't think I am an honest man.”

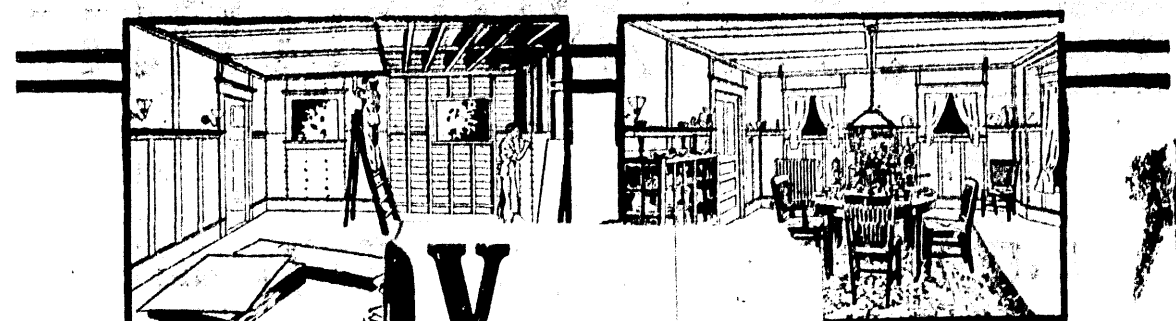

“You people of Illinois are a patient people. You have tried for many years to have the question of a constitutional amendment as related to the initiative and referendum submitted to the people and yet that has not yet been accomplished. New Jersey, when I became governor, had the reputation of being the least progressive of the states and yet the reputation was not deserved. For years the people had been going to the polls expressing their wishes but failing to elect anyone who would carry out those wishes. It was a decided novelty in political affairs. In that state when I made it known that I believed that every plank of the party platform should be carried out and that I intended to carry out every promise I had made in my campaign speeches. By some it was looked upon as evidence of my inexperience that I did not know any better than to expect that the party platform would be fully carried out.

“I do not hesitate to say that I believe some of those who were favorable to my election would not have felt that way had they really believed that I fully meant what I said about keeping all promises and pledges. That man is certainly never a public trust when he comes before the people, learns their wishes and then does not perform.

The Candidate's Responsibility.

“In making a campaign I cannot face an audience without having a feeling of responsibility come over me. I certainly could not travel about the country making frequent stops in order to meet the people. I had the inner consciousness that some moneyed interest was paying the expenses of my travels or that some group of men stood behind my candidacy with the end in view of accomplishing something on their own account. Nor would I want the knowledge that a group of supporters were behind me in order to accomplish the defeat of someone else. In such an event I would travel on an express schedule instead of making many stops.

“I do not want to go away from Jacksonville without expressing a word of tribute to that extraordinary leader, who was so long identified with life in this city, Hon. W. J.

WATT BIBLE CLASS.

Men of Christian Church Enjoy Banquet and Excellent Program

An elegant supper and program was enjoyed Friday night at Central Christian church by about fifty members of the Men's Bible Class, which is taught by James R. Watt.

The affair was given as the climax of a contest which has been going on in the class. The Reds, under the leadership of Edward Kastrup, won the contest and they were therefore the guests of honor at the banquet last night.

The Blues, of whom G. B. Andre was captain, were excellent hosts.

With Mr. Watt, the teacher, acting as toastmaster, the following splendid program was given:

SPEAKS FOR TAFT

Secretary Wilson Delivered Speech at Champaign—Made no Reference to Roosevelt.

Champaign, Ill., April 5.—James Wilson, secretary of the department of agriculture, tonight delivered his first speech in favor of re-election of President Taft in Illinois. He made no reference to Col. Roosevelt.

"President Taft handled the Mexican crisis well," he said. "He not only protected the Americans, but also retained the good will of Mexico. Some people in the executive office might not have handled the emergency with the same care and forebearance."

"It would be demoralizing to refuse the nomination of President Taft."

"The Payne-Aldrich tariff bill has been spoken against as if it were a public calamity. What harm has followed its enactment? Prices of farm products have been good, the wages of labor have been maintained, railroads have been extended, factories have been built and the republic has developed in every way."

Secretary Wilson will continue his campaign in Illinois tomorrow.

TOOK HORSE FROM TRACK.

William Nunes left his home for a few minutes late Thursday night for the first time in nine weeks and it happened in this way. The C. & A. overhead crossing on Independence avenue is not far from his home and he heard a horse struggling there on the track. Mr. Nunes was unable to get the Alton office by telephone, so he took a force of men, hurried to the crossing and succeeded in extricating the horse before the southbound passenger, which was soon due, came along. The same sort of thing has happened a number of times before and no doubt the work done by Mr. Nunes and his employees has saved not only many dollars' worth of property, but many lives as well.

Heil's great display of Easter lilies is worthy of your inspection to day.

WISCONSIN PRIMARIES.

Two Delegates Still in Doubt—Wilson Has 20 and Clark 4.

Milwaukee, Wis., April 5.—Gov. Wilson has at least twenty of the Wisconsin delegates to the national conventions, according to the latest figures and Speaker Clark at least four. Two delegates from the ninth district are in doubt, and will be in doubt until the official canvass for returns in one county were sealed and forwarded to the state capital with none of the election officials willing to disclose the result. This is the result of the preferential primary on Tuesday as nearly as can be ascertained until the official canvass.

VICTIM OF DYNAMITE.

Danville, Ill., April 5.—Edward Glaze, a farmer residing near Edgar, is dying from injuries sustained by a premature explosion of dynamite while blasting stumps. He was found wandering in a road with both jaws broken, nose gone, one eye torn out and his head badly torn.

Representatives of the juvenile court who were responsible for the raid say they will prosecute Hudson. He is accused of having beaten and otherwise abused the children. Although he derived from \$50 to \$150 a day from their begging on the streets, it is charged, he underfed them.

WOMAN JUDGE'S DECISION.

Denver, April 4.—The first decision of a woman judge was brought before the state supreme court to day for review. Mrs. L. B. Tague, judge of Eagle county, fined the Muller Mercantile company \$200 and costs for selling liquor in dry territory. The company appealed.

PARRAL IN HANDS OF REBELS.

Federal Troops Become Frightened and Run Away.

Jimenez, Mex., April 5.—Parral fell into the hands of the rebels to day. The numbers of the enemy, which looked so large to General Campa 1 1/2 hours of his defeat, proved to be a force of only 700.

They escaped last night, leaving behind them a rapid river and a mortar, previously captured from the liberals.

It developed that Generals Villa and Urdina, the federal commanders, fought alone on Tuesday, when they routed Campa. They are believed to have retreated to Mapimi, where the main federal forces are said to be.

PAPA'S ANSWER.

Her fairy form,
Her modest face,
Her charming air
And winning grace
Enchanted all
The lads in town,
And each one loved
Jemima Brown.
She oft was called
The village pride,
And for her love
I long had sighed.
I said I'd know
No joy in life till she'd
Consent to be my wife. She
Blushed quite red and said
"Oh, no!" and then referred me to
Her pa. His manner was both rude
And rough, and when he spoke his tones
Were gruff. I asked him then in accents
Bland to give to me his daughter's hand.
For answer he gave me his foot, incased
in a cowhide boot.

Curious Silver Musical Instruments Used by the Hindus.

The Hindus have a number of curious instruments for which great antiquity is claimed. Of these there is one that is very curious, not so much by reason of its form of structure, but because of the fact that it is played in a very peculiar manner. It is not a stringed instrument, it is not a wind instrument, and it is not an instrument of percussion. It consists of two small silver trumpets with a very delicate apparatus within.

When the natives play upon this instrument they invariably excite the greatest wonder in the foreigner, who is perplexed to determine how the player produces the sounds, for he does not place the instrument to his lips, but adjusts it to his neck. Foreigners have thought that a player of such an instrument must be a ventriloquist, employing the trumpets to convey a false impression.

It appears, however, that the variations of tone are produced by the variation in the quantity of air propelled through the instrument by the pulsations of the neck.

Nothing could be more curious, it is said, than to witness a performance upon this instrument and to hear the soft, sweet musical sounds that emanate from the silver trumpets.—Exchange.

ILLINOIS MAY DEBATE MILLIKIN

Decatur College Confers With Locals Relative to Contest in May.

Prof. Carl E. Robinson of Illinois college received a letter Friday from Clarence Orr of Decatur, manager of the Millikin university debating team, asking for a debate with the local college. Prof. Robinson also received a letter Friday from Prof. Mills of the oratory department of the university relative to the same matter. Prof. Mills states that a change has been made in the management of the university debating and that it is now partly under faculty supervision.

Millikin was a member of the prairie league with Wesleyan and Illinois college and was partly responsible for the cancelling of the debate this spring. Prof. Mills and others at the university, however, much regretted this and are still hopeful of arranging for a debate with Illinois college.

The matter was taken before the college debating committee and was acted upon favorably, providing that the inter-collegiate debate here can be carried through. It is very probable therefore that Illinois will debate Millikin and that the debate will take place near the first of May.

CHAVTAUQUA PLANS ARE PRESENTED

Messrs. Shaw and Ewert Discuss Summer Assembly With Business Men—May Combine Plan With Fall Festival and Home Coping.

The idea of holding a "Fall Festival" and "Home Coping" in this city or in its suburbs in the coming fall has been under consideration by various members of the Business Men's Association and other public spirited citizens for some time and those who have been heard to express themselves are strongly in favor of the project. The subject is under consideration, though, as yet, no plans have been consummated.

Now the subject of holding a chautauqua has been brought to notice in a forcible manner and the possibility exists for such an enterprise to eventuate.

Friday forenoon a number of the members of the Business Men's association met with Mr. J. R. Shaw of Bloomington and Rev. A. P. Ewert of Carrollton to hear a proposition from the visitors regarding the chautauqua idea. Mr. Shaw is a successful manager of chautauqua assemblies having, in recent years, been at the head of assemblies at Racine, Wis., Ottawa, Bloomington and other cities in Illinois. The gentlemen were shown various points in and about the city and though loud in praise for Nichols park, thought it was, at present, not sufficiently shaded for the purpose desired. They advocated an admirably adapted for the purpose of an assembly the land at the western terminus of the electric car line. The land in question, a part of the old Potts farm, is now owned by James & Buffe. It is nicely shaded and has an extent of approximately nine acres, so that there would be sufficient room for those who so desired to have cottages or tents erected upon the grounds. It is the intention, should the enterprise become a fact, to have erected a tent having a capacity of several thousand persons under which the various programs of a chautauqua nature may be carried out. It will be necessary for the proper funding of the enterprise for the business men to guarantee the sale of \$2,000 worth of tickets. This money would be utilized to pay for the attractions and the other expense money would come from admittance receipts.

After the matter had been discussed at some length it was referred to the special committee on a fall festival and home coping, appointed several months ago. This committee includes Dr. C. E. Black, Dr. J. R. Barker, Prof. G. W. Brown and Dr. C. H. Rammelkamp and they will look into the project with the idea in mind of consolidating Chautauqua plans with the festival and home coping. A report to the association will be made Wednesday.

Utica, N. Y., April 5.—Great crowds of striking employees of the cotton mills at New York mills today answered the appeal of the priests and attended Good Friday services. AN EASTER GREETING

Rev. H. M. Hamill Writes Beautiful Sentiment to Friends in This City.
O. F. Buffe and other friends of Rev. Howard M. Hamill of Nashville, Tenn., have received the following beautiful Easter greeting, which he has written for his Knight Templar friends:

"Somewhere in a quiet graveyard near or far, for most if not all of us our dead are sleeping. As the heart goes out toward the lonely graves, there comes an unutterable longing for those we have loved and lost. I do not know what I would do or whether I would turn if I had not come poor faith in the resurrection of Jesus Christ, and His assurance that my loved ones and myself shall meet again. I am haunted by the face of a dear little baby that smiled so sweetly on me the day before she went away. I can feel the persistent touch of a little brother, just 12, who died like a soldier, giving me his precious life for a word of cheer from an old Scotch preacher-father, who used to help me to live as a Christian and to do service for my Master. Certainly of all men I should be most miserable if those vanished hands are no more to touch mine, and these dear voices, so long silent, cease to speak to me no more. Nor will any other resurrection answer my heart hunger than that which came to Christ, and which he has pledged to me. I have loved Him more than life for many years, because He took me to His heart and forgave my sins; but as I grow toward the end of life, I lean upon Him more, because He is the one conqueror of death who shall give me back my dear life."

WAS HEARD IN SENIOR RECITAL

Miss Jeanette Taylor, a Student in the School of Expression at Woman's College, Gives Splendid Program.

A large audience was present Friday afternoon at 4:15 in Music hall to hear the senior recital by Miss Jeanette Taylor, who is a student of the School of Expression, of which Miss Amanda Kidder, is director.

Miss Taylor chose for her recital "Cape Cod Folks," written by Sarah McLean Greene, a story that has been widely read and dramatized. It will be remembered that the author made a visit to the Cape Cod community and became so well acquainted with their ways that when the book appeared she found a law suit on her hands, because she so accurately described some of the characters about the place that those who lived and visited there could pick them out. The charges against the authoress were fruitless and she won her suit.

It was in the story of this people as portrayed by the writer that Miss Taylor found an ample opportunity to display her elocutionary powers. Perhaps in all lines of work, Miss Taylor excels in the delineation of characters, possessing a keen appreciation of the unique character. She is naturally gifted with a good speaking voice and this, together with her graceful manner and charming personality, lends an indefinable cleverness to her work, which really captivates and inspires an audience.

In the part "Getting Ready for Sunday School," Miss Taylor kept the audience in a continuous laughter by her bright impersonations and in "The Wreck," the reader displayed an inner acquaintance into the authoress' meaning and rose to the dramatic climax in such a manner that she left no doubts in the minds of those present her talent for every emotion and feeling. The audience was in a sympathetic mood and liberal in applause and both the reader and her instructors are to be congratulated upon the afternoon's entertainment.

HIGHLY COMPLIMENTED.
Dr. W. W. Crane recently submitted a treatise "The Life of the Soul" to Dr. J. R. Cooke, head of the Methodist book concern and has a letter complimenting him upon the production. Dr. Cooke wrote: "Thanks for the privilege of reading manuscript of 'Life of the Soul.' I read it with care and with sympathy and found much to praise highly as to manner and form and you have certainly done your work well." The letter coming from the head of the great Methodist book concern is a compliment Dr. Crane naturally appreciates.

If you want ready made or tailor knoles can accommodate you all right.

WORTHY OF CONFIDENCE.
As various newspapers have already pointed out, the custom for years has been to allow a state treasurer four years of service in office with two years intervening between the terms. This has been the general rule where treasurers have given the state satisfactory service and should therefore certainly apply in the case of Andrew Russell, who is now seeking the Republican nomination for the treasurership. Mr. Russell made an excellent record when he held the office. His long banking experience here in Jacksonville has qualified him for the discharge of the treasurer's duties and his sterling character and honesty make him worthy of the people's trust.

JOHN DEERE IMPLEMENTS

The New Deere Gang

The Only Plow That Has Both Foot-Lift and Hand-Lift

Besides you'll find that the very name "John Deere" on any plow insures a lasting saving to you in Service and Durability. There is no plow made that has a better or easier Foot-Lift than the New Deere— and it also has a separate Hand-Lift. It is the only plow that a boy can lift out of the ground while the horses are standing still.

The New Deere Gang is the only plow that can be controlled perfectly while walking. The separate Hand-Lift gives the plow a steady, sure, and positive lift. It is found on other makes and you can raise the plow without getting on the seat. Lifts 7 or 8 inch, above ground instantly but easily and is positively the lightest draft plow made. This is due to the peculiar construction of the bottom. Our longest experienced making highest grade plows has taught us where the friction is heaviest, and we have shaped our plow bottoms to give the easiest penetration with the least draft.

Other features of the New Deere Gang are—Adjustable seat—Better steel used in construction throughout—Ease of management—Dust proof wheel boxes—Good high wheels—Easy running—Action in the furrow—Equal distribution of weight on each wheel. Many other features which we will tell you all about if you will call on us and see our Deere Line.

JOHN DEERE IMPLEMENTS have won the gold medal—the highest premium—at every World's Fair and National and International Exposition since 1872.

BETTER FEELING IN EVIDENCE

BUSINESS CONFIDENCE CONTINUES TO GROW.

Trade Conditions Are Constantly Improving—One Good Feature Is Arrival of Settled Weather.

New York, April 5. R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say:

The growth of business confidence which is so plainly in evidence may be greater than the growth of business activity, but the latter steadily increases and is, more over supported by substantial contributions to the soundness of general conditions. The better sentiment prevailing in most of the markets is clearly revealed in the reports which come from the different sections of the country and notably from the leading centers of the west and south. It is accentuated by constantly improving conditions making for good crops, by the steady expansion in the principal trades and by the removal one by one of causes of uncertainty. It is significant that while the number of commercial failures during the first quarter of the year was large, there was plain proof of expanding investment and a notable increase in the output of new securities and short term notes in the same period.

While the cotton goods markets are slightly less active, demand for spot goods continues steady and prices rule very firm, with jobbers doing a much better business than this time a year ago. Cotton goods for immediate delivery are scarce with a steady increase in values. In woolen goods there is a broad distribution of staple products. Several advances were made in overcoatings and worsted suitings. Both woolen and cotton yarns are very firm, and silks for fall are being ordered in a moderate way. A better tone marks the footwear market, but trading is not active as yet. The leather trade continues to increase in activity week by week and prices rule decidedly strong on all varieties and especially so on sole and on belting leather. Trade in domestic packer hides is rather moderate and prices on most varieties are firm.

Bradstreet's Report.

New York, April 5.—Bradstreet's to-morrow will say:

While good and bad conditions combine to give an irregular appearance to trade, there is an undeniably better feeling in evidence in the larger lines of wholesale and retail trade, except in the sections immediately affected by unfavorable happenings. Good features are the arrival of fairly settled spring weather at many points, the appearance of advanced demand for goods and retail, further improvement in iron and steel, and the settlement of many labor disputes in the textile and other trades by the granting of higher wages. On the other hand the influence of past heavy rainfall and the melting of snows in the valleys of most western rivers has resulted in widespread damaging floods and fears of further injury, the excess of moisture in the soil delays crop preparation and planting, and a south and impairs country roads, and the idleness of nearly 400,000 consumers tends to restrict personal activities, transportation and buying in the sections affected.

A survey of the entire situation leaves much to be desired, but it might be observed that political and tariff uncertainties are not so prominently instanced as discouraging elements.

Business failures for the week ending April 4th were 241, against 233 last week; 236 in the like week of 1911; 231 in 1910; 227 in 1909 and 258 in 1908.

BACK FROM THE SOUTH.

A few weeks ago John E. Ross of Arenzville had the excellent good fortune to wed Miss Thornley, one of the most estimable young ladies of that vicinity. They went for a wedding tour southward, seeing New Orleans, Biloxi, Miss., Mobile, Montgomery, Birmingham and several other places of interest and arrived home a short time since and were in the city yesterday shopping and looking about with a possibility of residing here if they succeed. In finding a house to suit them which the Journal hopes will be the case as they are the kind of people we need and will cordially welcome.

GOING TO CALIFORNIA.

Gilbert Dawson and family will shortly remove to California and take up their residence at Long Beach. Since coming to this city they have made a great many friends who will sincerely regret to see Mr. and Mrs. Dawson and their amiable and accomplished daughter, Miss Gertrude, go away but will sincerely wish for their abundant success and happiness in their far western home.

As "Ed" Howe Sees Life

There are times when a man should sit down, and be quiet; no one should scatter sunshine, humor and information all the time.

There are thousands of people waiting to be encouraged in foolishness, idleness and unfairness.

If you will agree to keep the people off my back, I'll tell you what the trouble is in this country.

You will reach your grave soon enough. If you travel as slowly as possible. Why run?

There is always a hurry in a house when a husband takes unexpected company home.

Women take more readily to kin; a bride is calling her husband's parents "mother" and "father" before she her wedding clothes off.

A man who is very energetic down town, may be mighty shifty gets her wedding clothes off.

Men have as many little mean ways as women; and, in big mean-ness, there are thirty times more men in the penitentiary than women.

However well you "know people," something is always coming up that shocks you.

FAIL TO DELIVER THE DELEGATES.

Governors Supporting Roosevelt Have Been Unable to Control Constituents—No Special Significance to Unattended Delegates in East. A special dispatch from Washington says:

As indicating the tremendous growth of Taft sentiment throughout the entire west, and also illustrating the trouble the "Governors" are having in delivering to Mr. Roosevelt the states which they promised to him as representatives of the great popular demand, that he became a candidate for the presidency, the primaries in Topeka, Kan., were significant. Notwithstanding the fact that Topeka is the official residence of Governor W. R. Stubbs, one of the most forceful of the Roosevelt leaders in that section, and notwithstanding the large official population therein residing, which owes its political allegiance to Governor Stubbs, five out of six wards in the city were carried by the Taft forces.

The friends of President Taft in Iowa, with only 12 votes lacking to give them the necessary 741 to control the state convention to be held April 24 at Cedar Rapids, secured exactly the 12 by the selection of a solid Taft delegation in Butler county. About twenty-five county conventions are yet to be held and advice from Iowa are that enough of these will select Taft delegates to give the friends of the administration a good working majority in the state convention. The Taft forces already have carried six of the eleven congressional districts in Iowa and the delegates from these together with the four delegates at large which will be selected by the state convention will give Taft at least sixteen of the twenty-eight delegates.

In a wild endeavor to make "news" out of "no news" the Roosevelt boomers are claiming a hollow victory in New England and New York because the delegates to the national convention at Chicago, following the time honored custom in those states, which is adhered to by both Democrats and Republicans, will in all probability not be instructed for any candidate for the presidency this year.

In 1908 these states took the following action in their respective state conventions in the matter of instructing delegates:

Maine, uninstructed; New Hampshire, uninstructed; Vermont, uninstructed; Massachusetts, uninstructed.

Connecticut instructed and Senators Brandegee and Burley refused to serve as delegates because of that fact. Rhode Island, uninstructed. New York, uninstructed. All of which goes to show that there is nothing "new" under the sun.

THE PLAYGROUND MEETING.

Remember it at the Library Building Monday Evening at 7:30.

Attention is again called to the meeting in the interests of a playground association at the Library building Monday evening at 7:30. It is earnestly desired that all persons interested in this enterprise be present and let us put our shoulders to the wheel and see what can be done in the way of preparing these interesting places for the pastime of the children of this city.

The best friends of the young and those who pay the subject the most careful attention are all agreed that a well conducted playground is one of the best assets a city can possibly have. A beginning has been made and now the thing to do is to keep on till our city is properly equipped and a spirit of progress and improvement cultivated.

We wish to thank all who assisted us during the illness and after the death of our mother; also for the beautiful flowers.

And decide for yourself. Here is one case of it. William E. I had pains in the small of my back and sides and after standing for any length of time, I became all run down. When Doan's Kidney Pills came to my notice, I procured a supply at Armstrong's Drug Store and after taking the contents of one box, the pain in my back had disappeared. WANTED AN EASTER SUIT.
Chicago Youth Stole Diamond From Benefactress.

Chicago, April 5.—Instead of garbling himself in a new suit and spending Easter with his fiancée, Miss Ella Steger, Herman Mueller, 18 years old, will pass the day and night in the city jail.

Mother stole \$30 and a diamond stickpin from Mrs. Louise Thomas, his benefactress, in order that he might obtain a new Easter outfit and make an impression on his sweetheart. His arrest followed and Municipal Judge Saltsch to day fined him \$1 and sentenced him to three months' imprisonment.

Mother didn't want Ella to see me in my clothes on Easter," was Mueller's only defense.

Mrs. Thomas admitted Mueller to her home after he had run away from home, because he did not get all the spending money he wanted.

PASTOR RESIGNS.
Rev. Malcolm E. Miller, pastor of the Congregational church at Waverly, has handed in his resignation, the same to take effect July 1, 1912.

Rev. Mr. Miller has been pastor of the church for four years and his going is deeply regretted by the congregation. He has received a call to the Congregational church at East Maline and there were such good offers in connection with the call that he felt he could not turn it down. There is a possibility that Mr. Miller may leave by the first of May. No successor has been appointed.

I hereby announce myself a candidate for the Republican nomination for member of the board of education in the fourth ward, subject to the decision of the Republican primary.

WIFE TOO AFFECTIONATE.

Display Brought Couple Into Court of Domestic Trouble.

Chicago, April 5.—Too much display of affection by Mrs. John Reckinger toward her husband has brought the couple into the court of domestic relations.

Reckinger told Judge Goodenow that his wife was not content to caress him and listen to his repeated declarations of love at home, but she followed him to his office. Not only did she interfere with his business, but her continued display of affection became very tiresome to him, declared Reckinger. So he left her and their two children. Mrs. Reckinger asked that her husband be forced to return home.

"All I can do," said Judge Goodenow, "is to see that he provides for your support and that of the children. No wife ought to interfere with her husband's business by following him around. On the other hand a husband ought to jolly his wife as much as possible."

Reckinger was ordered to pay his wife \$20 a month. As he left the court room his wife hung to his arm.

LAFOLETTE IN NEBRASKA.
Made Four Set Speeches in State Yesterday.

Lincoln, Neb., April 5.—Beginning a five days' speaking campaign in Nebraska, Senator Robert M. LaFollette today traversed the southwestern counties of the state almost to the Kansas line and then doubled back, reaching Lincoln for a meeting here tonight. During the day and evening Senator LaFollette made four set speeches, besides nearly a score of short talks at the different stopping places.

"The rule of the few must end and the whole people must have a voice," was one of the frequently reiterated statements of the senator. The time has come, he said, for the masses to assert themselves and no longer accept the dictum of leaders who serve their own selfish purposes or the interests of a few.

He said he had come to Nebraska because he believed the voters of the state were progressive and no longer willing to be dominated by the interests. During the day the senator made only indirect reference to the names of Taft and Col. Roosevelt, but said he was in the presidential fight to stay because he believed it was necessary for someone to battle for progressive principles.

CASE IN JURY'S HANDS

Verdict in Miss Merrey's Slander Suit May Be Returned To Day.

Chicago, April 5.—A verdict in the suit of Miss Esther Merrey, a former student, against Miss Marion Talbot, dean of women at the University of Chicago, for \$100,000 for alleged slander may be returned tomorrow. The case went to the jury late to day.

After the jury had been out more than three hours, Judge Pomeroy adjourned court until 10 o'clock tomorrow morning. If a verdict is reached before that time it will be sealed and returned at the opening of court.

The instructions of the judge held that:

"The university has the right to establish such standards of conduct for its students as the faculty may see fit.

"If the jury believes that Dean Talbot's words to Miss Merrey spoken in the discharge of her duty and not with express malice the verdict should be not guilty.

The plaintiff had proved no special damages and that if the words were uttered in good faith and without malice the plaintiff is not entitled to damages.

Miss Merrey remained in the court room after the jury retired. She was accompanied by several friends. Dean Talbot left the court room soon after the jury began to deliberate.

Anna Held's Opinion of An Automobile

Arthur Bunker Motor Car Co. Seattle, Washington.

Gentlemen: I cannot help but say that the big, luxurious Oakland car that took me so easily and comfortably around your beautiful boulevard is the easiest riding American built car I have seen. Of course, my foreign machines cost me thousands of dollars, but this is the first American built car that I ever thought their equal.

Respectfully yours, Anna Held.

You will note by Miss Held's letter that she has had experience with foreign built cars which cost her thousands of dollars. You will also note carefully that the Oakland is the first American built car that she ever thought the equal of the high priced foreign made cars. This is one of the best tributes that has ever been paid the Oakland, and, coming as it does from a woman who is in a position to judge of the comparative merits of high priced cars and medium cars, it should carry great weight.

ENORMOUS FARM WASTE

Economic Handling of Corn Stalks in Corn Belt Would Create Wealth Sufficient to Pay National Debt in Few Years.

No thinking man can ride through the heart of the corn belt and note the hundreds of thousands of acres of unused corn stalks without being impressed by the fact that there must be an enormous waste of a valuable product of the soil, but does he realize that at least a third of the total feeding value of the corn crop is thus lost?

It is interesting to read what Prof. W. J. Kennedy, head of the animal husbandry department at Iowa state college, has to say of the corn stalk loss for Iowa alone. "Cover hay," he says, "the standard roughage for cattle feeding, is worth at least \$15 a ton this year. It has been clearly established that two and a half tons of corn silage and 175 pounds of cottonseed meal are equivalent, from the standpoint of feeding the steer, to a ton of the best clover hay. The average corn crop yields 50 bushels to an acre and will make at least 10 tons of silage. Thus being true, it is easy to ascertain the value of cornstalks.

"Since 2 and a half tons of silage and 175 pounds of cottonseed meal have a feeding value of a ton of clover hay worth \$15, we may take \$15 as their joint value. Since cottonseed meal is \$30 a ton, 175 pounds are worth \$2.62. Take that from \$15 and you have \$12.37 as the value of two and a half tons of silage, or \$4.95 a ton.

"An acre of corn producing 50 tons of silage would, therefore, have a value of \$349.50—ears, stalks and all. The corn in the ear, 50 bushels to the acre, is worth \$25. The stalks are therefore worth \$24.50. From this we must deduct the cost of the labor of putting up 10 tons of silage from the acre, which is approximately \$7.50. We then have the real feeding value of the stalks an acre, \$17.

"There are standing today in Illinois," concludes Prof. Kennedy, "anywhere from 6,000,000 to 7,500,000 acres of cornstalks whose full value for feeding has not been utilized. If we apply the cornstalk value as we have just estimated it to the stalks on these millions of acres, we find they represent a loss of from \$100,000,000 to \$125,000,000. But let us suppose that the cattle that have been running in the fields have utilized half of this field value and that is doubtful, we still have from \$50,000,000 to \$60,000,000 as the annual cornstalk waste in Iowa."

What is true of Iowa is also true of Illinois. It means that the waste this year in Illinois is at least two-thirds of the value of the average corn crop in the state through a period of ten years. It means that the waste this year amounts to half of the year's crop value. The waste is just as great in the other corn producing states. When we multiply Iowa's loss by seven or eight, the product is astounding.

Would Pay National Debt. If the cornstalk waste on the seven or eight corn producing states were saved and used for feeding the economy would pay off the national debt, principal and interest, in less than ten years.

Illinois is awakening to the situation. The example and teaching of such progressive farmers as J. P. Mason, Frank L. Mann A. P. Grant, Phil S. Haner and many others of like caliber has aroused the farmers to the need of saving all the food value of the corn plant. Before these men were induced to go out and talk with other farmers and land owners at farmers' institutes, farm encampments and short courses, few silos were built in Illinois; now they are being built in every county—thousands of them will be built this year; the material for building 80 silos was recently delivered to one town in Effingham county, and with every silo built, whether it be of wood, cement or vitrified clay blocks, Illinois is a little nearer to the saving of its entire corn crop and is adding a little more to her reputation as a great agricultural state.

NO MORE CONSTIPATION --WHEE!

It's Me For Olive Tablets!

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for enemas.

Dr. Edwards, a practicing physician for 17 years and Calumet's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No gripping is the "keynote" of these little sugar-coated tablets. They cause the bowels and liver to act normal. They never force them to unnatural action.

It is easy to compel bowel and liver activity for a time with calomel and nasty, sickening, gripping castor oil, but the after effects are dangerous, and the real cause of the trouble is often never touched.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark, brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and constipated, you'll find quick, sure and only pleasant results from one or two little Olive Tablets at bedtime.

Thousands take one every night just to keep right. Try them.

"Extra" Little Olive Tablet has a 10c and 25c per box. The Olive Tablet company of Co-

DRAG! DRAG! DRAG!!!
So said a great many as the scribe was walking about the city taking notes. Teams may be spared better than later on and the good it would do the roads would be inestimable. Some of it being done, but not nearly enough and it is a pity that all the roads in the county can't be treated now while it is the best time. Drag, drag, drag, say the friends of good roads.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.
